

# Wallcote™ Vertical Wall Coating System

## Information Sheet

*Quality You Can Trust Since 1886...  
From North America's Largest Roofing Manufacturer™*

# WALLCOTE™

VERTICAL WALL COATING SYSTEM

## Now a Solution From The Name You Can Trust... The Liquid Wall Membrane that **Waterproofs, Breathes, & Beautifies**

### Your Safest Choice...

**Waterproof...** provides protection on a wide variety of vertical surfaces, including wood, stucco, masonry, brick, concrete and metal

**Durable...** resists blistering, peeling and cracking—significantly outlasts premium paints

**Resists...** problems associated with fungus, mildew and the harmful effects of the sun

**Resilient...** elastomeric membrane stays flexible at extremely cold temperatures and resists degradation from extreme heat, sun and humid climates

**Elastomeric System...** forms a monolithic membrane which firmly bonds to the substrate to fill in and seal most fissures and cracks while enhancing your building's aesthetic value

**Water-based...** environmentally friendly and safe

Features	Wall-Cote	Typical Paint
<b>Most Protection</b>	<b>12-15 mils</b> <b>Superior Protection</b>	<b>1.5-3 mils</b> <b>Moderate Protection</b>
<b>Protection Flexibility:</b> Accommodates building and substrate movement (even at temperatures as low as -30°F)	<b>YES</b>	<b>NO</b>
<b>Stays In Place:</b> Does not delaminate or crack due to harsh climates or substrate movement	<b>YES</b>	<b>NO</b>
<b>Long-Lasting Mildew Resistance:</b> Helps to resist mildew growth for many years	<b>YES</b>	<b>NO</b>
<b>Great Looking:</b> Keeps its great looks after many years	<b>YES</b>	<b>NO</b>
<b>Protection from the Elements:</b> Passes rigorous laboratory tests for fungus resistance, mildew resistance, salt and temperature extremes	<b>YES</b>	<b>UNKNOWN</b>

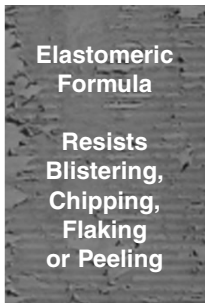

## Everything You'd Expect From The Waterproofing Leader

Exterior Wall  
Protection System

# WALLCOTE™

VERTICAL WALL COATING SYSTEM

## Your Best Choice...

**Large Color Selection...** Available in white, 16 standard colors and custom colors to match any customer sample

**Specially Formulated...** With higher solid content than paints to restore most exterior wall surfaces—providing longer protection; high build functional membrane 12-15 mils vs. paint at 3-5 mils

**Low Maintenance...** Eliminates frequent repainting and maintenance of exterior walls

**Outlasts Others...** Stronger resistance to discoloration and fading while helping to resist blistering, flaking or peeling

**Long Lasting...** Warranted for up to 10 years\*

\*See limited warranty for complete coverage and restrictions

## Looks Like A Paint... Protects Like A Membrane

- Superior adhesion on all typical exterior wall surfaces
- Bridges and seals most cracks due to building movement and localized stresses
- Colors, waterproofs and protects
- Helps to resist blistering, peeling or cracking when properly installed
- Stays flexible at extremely low temperatures; as low as -30°F
- Helps to resist fungus and mildew growth
- Significantly outlasts premium paints
- Available in white and a large variety of colors
