Your Team Helping You With All of Your Architectural and Specification Needs!

Assistance We Can Help You With...

The Following Tools Are Just One Phone Call Away!

- **Design Lines** – CSI formatted specifications for the commercial roofing contractor, roofing system specifier, and roof consultant.
- **Cut Specifications** - When time is of the essence, AIS can generate a one page cut specification complete with roof diagram. These can be done in minutes and faxed out immediately.
- **Customroof.com** – A substitution/lead generation program combining the latest technology with technical and industry knowledge to help insure GAF and US Intec is approved to bid every project available. AIS actively searches, reviews and submits on over 30,000 projects in bid phase and over 40,000 in preplanning phase each year.
- **Submittal Express Program** – Complete bid packages prepared for our Master Select, Master, and Master Elite contractors to fulfill most bidding needs. Packages include: Design Line, Cut Spec, Product Samples, Warranty sample, MSDS, Tech Data, Certification Letter and UL/FM Letter.
- **Bid Planner Program** - A lead generation report taken from information entered into customroof.com and e-mailed directly to Master Select, Master Elite and Platinum contractors daily. E-mails contain all pertinent project information on projects GAFMC/USI is approved to bid on.

How Can These Services Help?

- **No longer does the specifier spend hours** researching and writing installation methods and specifications as well as code requirements.
- **Submittal packages are easy to prepare when using our Submittal Express** – all of your submittal needs are provided typically within 24 hrs.
- **All application methods, product descriptions and architectural details conform to our company’s requirements.**
- **Design Line specs are produced with high quality graphics and concise instructions**, enabling you to present accurate and professional proposals in a fraction of the time.
- **These programs are provided free of charge** as a service of GAF.

How Do I Access/Questions?

- **Just call us and let us know how we can help!** Your AIS team member is an important resource that can really help you work smarter, not harder!
- **Please contact your AIS team member at 800-522-9224**
