

Immediate Cash Flow. That's the Bottom Line.

What are your current accounts receivable? \$100,000? 200,000?
How many of these invoices are over 40 days? Imagine having a
portion – or even ALL – of your accounts receivable available within
24-48 hours. Contractor's Financial Services can make it happen.

Contractor's Financial Services specializes in the management and
control of accounts receivables for commercial contract service
companies just like yours. Our low rates are based on a sliding
scale determined by your A/R aging. You simply discount your
invoice a modest amount, and receive the balance in as little as
24 hours. Nothing will change in terms of your billing cycles,
rates, description of services, line item formatting or forms.
With predictable and accelerated cash flow (24-48 hours),
you'll have the working capital to take advantage of materials
discounts and move on to the next job right away rather than
waiting 45-60 days for payment.

The accounting professionals at Contractor's Financial Services
will help you get paid faster, satisfy your customers, drive revenue
and ultimately reduce your overall billing costs.
