Convenience. Transparency. Speed. The marketplace is changing and consumers are demanding these things more than ever. According to research conducted by BigCommerce*, 96% of Americans with internet access have made an online purchase in their life, 80% in the past month alone. Why? **Convenience, transparency, and speed.**

One Click Contractor is transforming the way home improvement projects are sold.

Our intuitive estimating tool is completely customizable to your brand, products, pricing, and documentation so you don't have to change how you do business. And it's fast - simplifying the estimating process so you can do your job more quickly, more efficiently, and with more ease.

The future of estimating is now.
