MB 34/ BUR 34 – STRATAVENT® ELIMINATOR™ NAILABLE VENTING DETAIL, NEW ROOFING – NAILABLE DECK

For use over lightweight insulating concrete, poured gypsum, wood and other acceptable nailable decks and fills without insulation.

Refer to MB/BUR Systems Installation Requirement Section.

Fastener type and spacing as appropriate for deck type and uplift required.

When the minimum dimension of the roof exceeds 60 feet, top side field venting should be used in addition of the edge and parapet wall venting. Roof vents are to be applied at the rate of one vent per 1,000 square feet of roof area.
