Key Danger Signals Brochure
(RESKD100)

Updated: 10/14
Missing, cracked, or curling shingles. Possible cause: Shingles have reached the end of their useful life.

Excessive energy costs. Possible cause: Insufficient attic ventilation causes heating/cooling system to run excessively.

Stains on interior ceilings and walls or mold and mildew growth. Possible causes: Inadequate or faulty shingle underlayment allowing leakage, or inadequate ventilation.

Dark, “dirty-looking” areas on your roof. Possible cause: Loss of granules due to age of shingles.

Excessive energy costs. Possible cause: Insufficient attic ventilation causes heating/cooling system to run excessively.

Stains on interior ceilings and walls or mold and mildew growth. Possible causes: Inadequate or faulty shingle underlayment allowing leakage, or inadequate ventilation.

Leakage in attic after driving rain. Possible causes: Leaky or inadequate shingle underlayment; deteriorated flashing.

Blistering and/or peeling of outside paint. Possible cause: Excessive moisture or high humidity due to poor attic ventilation.

Roof shingle, sheathing, and siding decay. Possible cause: Poor attic ventilation.
GAF offers you many great Lifetime Shingle choices, including Timberline® Shingles with Advanced Protection® Shingle Technology. They’re the #1-selling shingles in North America!

Advanced Protection® Shingle Technology results in superior protection for your home while reducing the use of precious natural resources. That’s better for your home—and better for the environment!

To learn more about why Advanced Protection® Shingles are your best choice, visit gaf.com/aps.

A new roof is more than just shingles. When you install any GAF Lifetime Shingle and at least 3 qualifying GAF accessories, you’ll automatically get up to a Lifetime ltd. warranty on your shingles and all qualifying GAF accessories! Why settle for anything less?
